FARMINGTON HIGH DEFEATS

FREDERICKTOWN HIGH

Coach Haldeman's dashing High School football team defeated Fredericktown High School's team on the local athletic field on last Friday afternoon, the final score being 74 to 0.

The score would indicate a less interesting game than the contest really proved to be for Fredericktown played a stronger game of offense than the score seems to show.

During the last three quarters the visitors made first down several times and on two occasions came dangerously near the Farmington goal. One time they reached Farmington's fifteen-yard line after a series of line plunges and were stopped only after a strenuous effort on the part of Farmington's line.

Their offensive work, however, was not so effective, due probably to inexperience in that feature of the game. Last Friday's appearance was the first inter-high school game the Fredericktown boys had participated in this year, and the school had not and a team for two or three previous years.

Farmington scored eleven touchdowns and kicked eight of the goals. The touchdowns were pretty well distributed among the backfield men, Simms, Garner, Denman and Graves, all scoring two or more touchdowns.

A number of different formations and various plays were tried by Farmington with usual success. The forward pass proved difficult for the visitors to break up. Capt. Simms managed the team with great skill and played his position faultlessly. Garner, who was just recovering from a painful jar received in the Perryville game the week before, saved himself as much as possible on defensive work, and did not seem to play up to his usual ability.

"Ted" Graves was not at his best, on account of a severe cold, and was intentionally shielded from too strenuous work. In the last period he received a beautiful pass and made a fine run for a touchdown soon after having carried over a touchdown on a series of line plays. Harry King Denman deserves special mention for the excellent manner in which he played both on offensive and defensive. He was found in the midst of the mixup and eluded the Fredericktown tacklers with great skill. His handling of the forward passes was as clean and skillful as ever seen in Farmington. Gibson on right end played a very excellent game. He is a good man in every department of the game and always seems at his best.

The line weakness displayed in the Perryville game again manifested itself and caused the coach and supporters of the team some worry. Improvement in that position is necessary to avert disaster in some of the coming games.

Farmington has, so far, won all three of the games played and scored 141 points on their antagonists to six points scored against them.

BOYS' AND GIRLS' CLUB MEMBERS REPORT RESULTS

Pork was produced for less than ten cents a pound, and beef for seven cents, by the winning members of boys' and girls' clubs in Clark county according to the county agent. The ration that secured the most economical results in calf feeding was that of grain with pasture. Likewise, the most economical gains on pigs were made by feeding grain and milk or milk products with oats and rape pasture. The cost of production was figured according to the system used in club work by the University of Missouri College of Agriculture and is not the same as that used by the feeders operating more extensively.
